SATURDAY EVENING, SEPT. 3

WILLIAM BARNES, jr., one of the leading republican state committeemen of New York, issued a statement last night, in which he declares that "hysteria has run riot throughout this country," and that the question to be decided at the coming republican state convention at Saratoga is "whether the republican party will fight the disease or succumb in the interest of politicians seeking office of temporary acclaim." The character of the recent addresses of Theodore Roosevelt in the west, Mr. Barnes says, "has startled all thoughtful men and impressed them with the frightful danger which lies in his political ascendency." When he talked with with the president is waning. Bal-Roosevelt after the meeting that selected Vice President Sherman as temporary chairman of the convention over the former president and learned his attitude toward "public matters," Mr. Barnes says he told Roosevelt that he never could have voted for him. Herr Ledebour, a socialist member of the German Reichstag, who on Wednesday, at the session of the international socialist congress in Copenhagen made an attack upon Roosevelt, calling him a "political drummer," and shamed him for joining "the British rulers against Egyptian patriots," again returned to the attack yesterday. Former President Roosevelt's defense of British rule in certain parts of the world, said Herr Lede- ger's request, and Smith in turn placed bour, would make Franklin, Lincoln, or Washington ashame that he was a representative of the great democratic nation. The ex-president is slowly but surely stirring up hornets' nests, and the determination of his former allies to check his supposed political ascendency is becoming more pronounced. Holmes has conducted practically much daily.

The endorsement was included in a speech praising Senator Dolliver, of Iowa: Representative Hubbard Iowa. and Representative Martin. of South Dakota. Roosevelt included the maximum and minimum feature and the Phillipine provision of the tariff bill as steps in the right direction. He indorsed Taft's ideas for a tariff commission and approved Taft's interpretation of the commission's power. said, however, that the tariff board was not a commission.
